

# EYES Childcare Welcome Letter 2021

## EYES Mission & Goal

Early Years Education System, EYES's goal is to educate and empower children, our intellectual and educational reforms have completely revolutionized the educational system. EYES focus is on developing emotional intelligence and values along with social, physical, cognitive, and intellectual skills. EYES's common-sense practices and a holistic teaching environment strives for equity over excellence and dedicated in making every child's experience a positive one.

We welcome you to the EYES Child Care Family. We believe that every child is unique and will grow at their own pace. EYES' teachers spend time nurturing children's strengths and encouraging them to reach new heights.

EYES focus is on imparting learning to the students in a natural surrounding learning with each other with humanity, love, and discipline. The essential teachings are in language, science, mathematics through group discussions, and self-learning. Not only this, but the focus is also be given on arts, sports, crafts, singing that developed their intelligence and critical thinking. Activities such as yoga and meditation, generates positivity, peace of mind and make them fit.

All these will help in personality development and will increase their confidence, sense of discipline, intellect, and mindfulness.

Overall, the idea of inculcating an EYES Gurukul system in education is to assist the children in understanding the concept of a balanced life. WE believe, this very ideology of balance should be taught to the kids from a very young age. EYES program incorporates all our child's developmental domains, ensuring positive growth.
